Welcome,

Congratulations on being smart enough to look into natural ways to take care of your health and finances.

My name is Christopher. I have worked and won awards for global companies like Volkswagen and American Express, lectured and started my own business. What I've enjoyed most though, is helping people earn enough to pay for their life plans.

When I first heard about this business, I was very sceptical that it was a scam; then I discovered the Company has been around for 19 years

and is listed on the New York Stock Exchange which only lists legitimate companies.

I also found out the company has over \$3 Billion in sales and paid out over

\$1 Billion to its employees, still I was sceptical.

Then I looked on the internet and while many reports were positive, there were a few negative reports, but soon it

became clear these were by people who were envious of the company's success or were in direct competition with the company (e.g. Big Pharmaceuticals).

Mission 5 Million

Then I found out about the Company's Goal to feed **5 million Kids** who would otherwise die from poor nutrition and I joined.

What Do You Do?

While what we do may not always be easy, it is incredibly simple and can be summed up in 3 steps:

1. Order -

Organic Products backed by world leading Science made in a \$50 million laboratory.

2. Eat - Products made

from organic real food are delivered to your door and you eat them.

3. Show - Others

how to do the same. This makes your products free, gives you a second income and a way to help solve global malnutrition among kids.
